

TIC-TAC TOE - Be the Janitor with you

What you need: 3 types of 10 small objects to use as checkers (for example, 10 paperclips, 10 small erasers and 10 small pencil sharpeners or 10 coins, 10 bottle tops and 10 earrings).

Game: Play the traditional tic-tac-toe game (three identical colours horizontally, vertically or diagonally), but instead of colours, use three different signs.

1. Students 2. Teachers 3. Janitors

For every move, you can place a new checker onto the board (from any of the three groups) or change one of checkers already on the board: Students cannot defeat/replace any other checkers. Teachers can fight/replace students. Janitors can replace both, teachers and students. The player who can first close a three-some row of the same type of checkers, wins.
